

Mr. Allen Levinez Ingram II

December 21, 1976 - April 4, 2019

Early Tuesday morning, on December 21, 1976, in Landstuhl Germany, Allen Ingram and Lula Mae Ingram were blessed with a precious “Baby Boy,” whom they named Allen Levinez Ingram II. On April 4, 2019, in Versailles, Kentucky, Allen Ingram II, again, became very special, as he made his transformation from a mortal to a spiritual being. In Allen’s 42 years of life, he accomplished great achievements. Allen’s formal education began with Elizabethtown Independent Schools, in Elizabethtown, Kentucky, where he graduated as a proud Panther from Elizabethtown High School (EHS) in 1994.

Immediately after graduating early from EHS, Allen wanted to attend an active HBCU, wherein he entered the Honors Program at Kentucky State University to pursue a chemical engineering degree. While at Kentucky State University, Allen finally fulfilled his childhood dream of being on the football team, where he affectionately gained the nickname, “Rudy” by his fellow teammates.

Allen then transitioned to the University of Kentucky to pursue a degree in Chemical Engineering. While at the University of Kentucky, in the year of our Lord nineteen hundred and ninety-six on April 8, as a young man destined for greatness, Allen crossed the burning sands and entered the fold of the wondrous fraternity, known as Omega Psi Phi through the Rho Lambda chapter.

In pursuit of attending only the best Engineering program, Allen ultimately earned his Chemical Engineering degree from the distinguished North Carolina A&T State University College of Engineering.

Everyone knew Allen to be smart, kind, loving and helpful, with an unyielding drive for giving back to the community and helping young people achieve greatness they never knew possible. Allen did not take his chemical engineering background for granted. After graduating with his Chemical Engineering degree in Greensboro, North Carolina, Allen came back to Lexington, Kentucky to complete a doctorate in mechanical engineering. In addition, he was instrumental in re-chartering the Central Kentucky Professional National Society of Black Engineers (NSBE) chapter and served as their first president. Allen also provided leadership in re-chartering the Greater Lexington NSBE Junior at the University of Kentucky.

Allen also led the Engineering Cluster for the YMCA Black Achievers program for many

years. He was also known as one of the best Math and Science tutors in Lexington, Kentucky, helping students build their confidence and turn their grades from failing to A+'s. Allen also helped students achieve greatness by exposing them to Science, Technology, Engineering, and Math opportunities. He believed the greatest gift adults could give children is exposure. Additionally, Allen was instrumental in starting and coaching competitive Chess Clubs for multiple middle schools in Lexington, Kentucky.

Allen was an active member of Consolidated Baptist Church. He also served several years as an engineer with the Kentucky Division of Water prior to serving as Team Leader with Yokohama Industries Americas, Inc. of Versailles, KY.

He leaves behind his father, Allen Ingram and beloved mother, Lula Mae Jones Ingram Taylor. He also leaves behind his sister Alethea Ingram Bernard (Thomas Bernard), nieces Amber and Karyn, nephew Desmond, a daughter, Alayna Bryant-Ingram (mother Uneeda Bryant), aunts Nezzie (Leroy) Crowder, Ruth (Oliver) Strothers, Queen Simpson, Dr. Estella Ingram-Levy and Lela Jones, uncle Tommy Jones, a host of cousins and other extended family to include Erika McMurry, Jybrill McMurry, Aaron McMurry, Sharita Stone, and many other close relatives and friends.
