“ Becky was the kindest person and once she called you a friend you never had to question her loyalty. She would go to battle for you. I've known her for about 30 years. Through heartbreak and celebration. As roommates but more than that. I believe God gives us friends who are also our soulmates. Destined to be in our tribe forever. And even after I moved from Lexington to Louisville we stayed close getting together as much as we could with jobs and kids and everything in between. I am a better person because of her and her boys. I love you Adam and Andrew. I hope you know that and I am here if you need me. I promised her when you were little I would help take care of you and that promise still stands. Because she would do the same for me and mine. Godspeed Becky. See you soon. 💖
